

**For knowledge and skills in horticulture.**

### **Organization:**

This blended learning module consist of 3 e-learning modules and 9 practical assignments. This course will teach you all you need to know about the organization of your greenhouse.

### *Modules:*

Module 1 – Introduction and planning: You will learn how you can organize your greenhouse and what to look for when you make a planning.

Module 2 – Perform: You will learn how effective management and communication will lead to a successful organization.

Module 3 – Evaluate: You will learn how to evaluate your organizational goals can be evaluated, which role learning can play in your organization. Finally you will practice the content of the 3 modules in a case.

### *Practical assignments:*

The 9 practical assignments will help you to apply the information that you have learned in the modules to your own practice. A personal instructor will give you guidance through the course, you will get personal feedback to your assignments and you can also send in questions and ask for advice. By entering this course you will get access to the Discussion area, where you can discuss topics with other professionals.

Each module will have a duration of 15-20 minutes. Each practical assignment will have a duration of 20 – 45 minutes. The modules and practical assignments will be available for 6 weeks after payment is completed. After successfully completing all three modules and the practical assignments, you can do an examination (if you wish) and hopefully will receive an accredited certificate.
